

# Engel & Völkers Partnercard

Give yourself the luxury of a first-class service!

Dear Property Owner,

The summer this year on Majorca was impressive: very sunny, warm sea and barely a cloud in the sky.

We wish that you can enjoy those beautiful summer days to the fullest and without any trouble whatsoever in your home. Therefore, we have extended our after sales service and would like to introduce you to our Engel & Völkers Card – an exclusive card for our Engel & Völkers customers; so that you can enjoy the sun in Majorca in blissful happiness, and do not have to worry about your home when you are away from Majorca.

The Engel & Völkers Card has two advantages: Your property is checked regularly and you receive preferential treatment from our partners.

We work with a carefully selected and absolutely trustworthy partner who checks your apartment/your villa/your finca as required on a weekly or biweekly basis. Our partner checks among other items the functionality of the alarm system, the lights, the flushing system, the water levels and the rain pipes. After every control visit you receive the protocol itemising the visit. If requested, repairs can be conducted.

As a Engel & Völkers Cardholders, you can also benefit from our collaboration with exclusive partners on Majorca, from interesting discounts and other complimentary services. Regardless of where you are, in selected hotels, restaurants, on the golf course, at car rental places, in galleries or many shops – present your Engel & Völkers Card and receive a special treatment.

## Engel & Völkers Partnercard

Give yourself the luxury of a first-class service!

And because a property is always a family home, the whole family can obviously use all the benefits of the Engel & Völkers Card available from our partners.

Are you interested? Would you like to experience luxury on Majorca and complement it with the Engel & Völkers Card? I would be very happy to give you further details and to offer you our extended customer service.

Yours faithfully,

Nicole Rose
